## 19 Appendix A

- 20 Fig. A1 is an appendix figure with a specific appendix prefix.

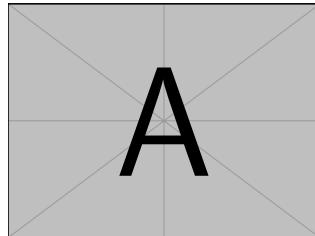

Figure A1: Example figure with a specific appendix prefix.

- 21 Tab. A1 is a longtable example with reduced row height and specific appendix prefix.

Table A1: This is the caption of a longtable with reduced row height example with a specific appendix prefix.

Animal	Description	Price (\$)
Gnat	per gram	13.65
Gnu	stuffed	92.50
Emu	stuffed	33.33
Armadillo	frozen	8.99

- 22 Tab. A2 is a longtable example with reduced row height and line breaks in the table headers and  
 23 a specific appendix prefix.

Table A2: This is the caption of a longtable with reduced row height and multi-row table headers example with a specific appendix prefix.

ID	Database name	Size (MB)	No. of records	Time stamp 1st record	Time stamp last record
1	dummie	2.1	33	dummie	dummie
2	dummie	4.3	67	dummie	dummie

- 24 Text default size after the longtable with the reduced font size.  
 25 Tab. A3 is another longtable example with reduced row height and line breaks in the table headers  
 26 and a specific appendix prefix.

Table A3: This is the caption of a longtable with reduced row height and multi-row table headers example with a specific appendix prefix. Note the escape of the [ symbol with {} in the 5th header. This is necessary since the linebreak shall be just before the [ symbol. [This is a href in a caption.](#)
